

### Emergent Wetland Habitat

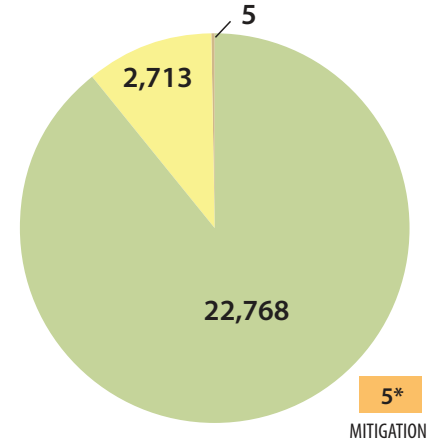

Total area = 4,440 acres

### Managed Seasonal Wetland Habitat

Total area = 2,097 acres

### Managed Wetland Habitat

Total area = 25,486 acres

#### Habitat Status (acres)

\*NOTE: Emergent wetland restoration mitigates for the loss of emergent wetland and jurisdictional wetlands within rice and irrigated cropland/pasture. Up to an additional 5 acres of emergent wetland may be restored to mitigate for impacts on 5 acres of managed wetland if managed wetland is not restored to mitigate for said impact.
